Cutting-edge communication tools

We're Jabra; a world-leading audio and video brand. Part of the GN Group, we're the only company in the world with consumer, professional and medical-grade sound expertise, all under one roof. We create intelligent headsets and communication tools, and pioneering video conferencing solutions, helping professionals everywhere to work more productively, and delivering better, more inclusive meetings wherever you're working from.

Our Heritage

As part of GN Group, Jabra has a 150-year history of leading the way, using our unrivaled understanding of high quality sound in all its forms to pioneer bold innovations that bring people together.

- 2023** — **Jabra launches Speak2**
 The next generation of professional speakerphones. 
- 2021** — **Jabra reinvents video conferencing** with the launch of PanaCast 50 and PanaCast 20. 
- 2020** — **Jabra launches Evolve2.**
 The new standard for professional headsets. 
- 2019** — **Jabra enters the video market with Jabra PanaCast.**
 Engineered to be the world's first intelligent 180° Panoramic-4K plug-and-play video solution.* 
- 2018** — **Jabra launches the Jabra Engage Series.** Engineered to be the world's most powerful professional wireless and digital corded headsets.* 
- 2014** — **Jabra launches Jabra Evolve,** a truly innovative series of business headsets with unique noise cancellation. 
- 2003** — **Jabra creates the world's first wireless headset** for conference calls. 
- 2000** — **GN acquires Jabra,** the largest and leading supplier of **advanced hands-free headsets** for mobile phones in the US. Jabra is now a part of the GN Group. 
- 1996** — **GN and American ReSound** (hearing instrument manufacturer) form a strategic alliance, resulting in the world's **first software-based digital hearing aids.** In 1999 GN acquires ReSound Corporation. 
- 1872** — **GN opens the world's first telegraph connection** from Northern Europe via Siberia to Japan and Hong Kong.
- 1869** — June 1, the **Great Northern Telegraph Company** is founded by C.F. Tietgen.

Anywhere works

'Hybrid working' is a relatively new term for something we've known for years at Jabra; it really doesn't matter where you work.

Hybrid working means having the flexibility (and supporting technology) to be able to work effectively from the home office, airport lounge, or even the train, just as you would from the traditional office. In fact, most knowledge workers now expect their working week to be divided between three locations¹.

As many of us have discovered, there are lots of benefits to effective hybrid working – improved work-life balance, more flexibility, motivated colleagues and better productivity. For many of us, less time spent commuting is a major bonus. But to get the most from your hybrid workday, you definitely need the right tools. 85% of businesses are currently looking to improve collaboration for their employees through better technology², but here at Jabra, we've been working on it for years.

It's all about keeping you seamlessly connected to everyone on your team, no matter where you all are. It's keeping distractions at bay and helping you find your own oasis of calm, whatever's going on around you. Keeping you flexible, productive, and happy.

With our range of outstanding professional-grade devices, any place can be a workspace when you need it to, and when technology moves in step with your life, there's no compromise needed between convenience and professionalism.

We believe that with the right tools, you can work from anywhere. Because anywhere works.

“One of the things I really like about the Jabra products is their modularity and their versatility, which provide us very good working conditions, whatever the environment and the work spaces.”

LOUIS-MARIE PONS - EXECUTIVE ASSISTANT, NOVO NORDISK

PANACAST SERIES

Scientifically proven to increase meeting quality and engagement¹

At Jabra, we engineer world-leading technology that's designed to help people stay connected, no matter where they are. Our PanaCast Series of groundbreaking videotools delivers outstanding remote collaboration experiences for every need. We've used our unique combination of world-leading professional audio and pioneering intelligence-driven video conferencing technology to reinvent modern ways of working. From the office, to the home office, and everywhere in between, there's a PanaCast solution that'll ensure your remote meetings are just as immersive, engaging, and productive as your in-person ones.

This is video conferencing. Reinvented.

JABRA PANACAST 50

The award-winning hybrid meeting experience for small to medium size rooms

- 180° field of view delivering wall-to-wall room coverage
- Four powerful speakers and eight beamforming microphones for astounding Jabra sound with full duplex audio, noise suppression, super wide band audio and echo cancellation
- Intelligent meeting room experiences that deliver more inclusive hybrid meetings, including;
 - o Intelligent Zoom that automatically adjusts the field of view in real time
 - o Virtual Director that intelligently tracks the active speaker
 - o Dynamic composition that delivers a close-up view of the 4 most recent speakers in the room
 - o Intelligent meeting space defines room boundaries for a customized virtual meeting space
 - o Intelligent speaker identifies the voice of up to 10 speakers in a meeting room
- Safety Capacity and Room Usage Insights generates anonymous room occupancy data
- Network-connected system enables easy remote management and data access
- Real-time whiteboard streaming for more inclusive remote collaboration

EVOLVE2 SERIES

The new standard

You want to work anywhere? You need a professional headset.

Enter Evolve2. We've re-engineered our world-leading Evolve Series in every single way to bring you performance enhancements across the board. It's like having a world-class sound assistant, wherever you are.

Welcome to the new standard.

JABRA EVOLVE2 SERIES

It's not just new in every way. It's the new standard.

We know you're looking for better ways to work from anywhere. To do that, you need headsets that don't just deliver, they always manage to keep up.

Evolve2 is our most advanced range of headsets yet – it's designed to boost productivity and improve concentration and collaboration in the face of ever-increasing challenges. Featuring better noise cancellation than ever before, world-leading call performance, industry-leading battery life* and significantly enhanced comfort, these headsets are the productivity tools you need to help you concentrate and collaborate from anywhere you wish to work.

HOBBIT

Solutions for education

With hybrid learning now being the preferred method for nearly half of all students, flexible technology is key. Reinvent the classroom, with technology that enables a mix of in-person, online, and on-demand learning, seamlessly.

Solutions for healthcare

With remote healthcare becoming more widely available, the right devices help to ensure the provision of these vital services is of a consistently high standard. Jabra keeps healthcare workers connected.

Solutions for government

Governments around the world have a unique need to build and maintain trust with their constituents. Our range of world-leading enterprise-grade technology helps to ensure that every communication between government and citizens is secure, reliable, and uninterrupted.

JABRA FOR TEACHERS

Class is in session. Wherever you are.

- The PanaCast Series gives teachers the flexibility to teach just like they usually would
- PanaCast 50 features the hallmark 180° field-of-view and premium 2-way audio, for an outstanding all-in-one experience
- PanaCast 20 opens up a new world of portable, hybrid teaching, with AI-enhanced lighting optimization and Intelligent Zoom for the perfect picture every time
- Teachers can pick up their PanaCast 20, along with their Speak 750 speakerphone or their Evolve2 30 headset, and take their tech with them to the next classroom – or home

JABRA FOR STUDENTS

Location is no barrier to learning

- The Biz 1100 EDU headset delivers professional-grade audio, with noise-cancellation, hearing protection and easy connectivity to help students find their focus
- The Evolve 30 and Evolve2 30 headsets give students the flexibility to learn anywhere, easily eliminating background noise and allowing them to concentrate
- PanaCast 20 delivers premium AI-powered 4K Ultra-HD video quality to make the digital classroom experience the best it can possibly be

RECOMMENDED PRODUCTS

We've introduced even more flexible features to our market-leading audio and video devices, to help teachers make anywhere their classroom.

Accessories & Software

Get the most of your Jabra devices. Jabra Xpress and Direct software let you manage all your headsets and video devices, wherever they are in the world. Continuous firmware upgrades keep everyone's tech running at peak performance, for the best user experience.

JABRA AUDIO PROCESSORS AND SWITCHES

Amplify your audio

Turns the traditional desk phone headset (QD) into a digital headset with all the advantages of improved call management and the ability to use a QD or a USB headset on both the desk phone and a UC softphone.

JABRA LINK 950

Enables you to use a USB headset to connect to your desk phone, softphone and mobile phone¹

- Ideal for organizations in the process of transitioning to softphones
- Use one USB headset with your desk phone or both softphone and desk phone
- Choose a headset with productivity-boosting features such as ANC, busylight and microphone positioning guidance
- Compatible with leading desk phones and softphones

JABRA LINK 860

Turns the traditional desk phone headset (QD) into a digital headset with improved call management

- Works with QD headsets on both desk phones and a UC softphone
- Supervisor port for easy assistance and training purposes
- Easy connectivity and power through USB
- Easily switch between desk phone and softphone calls

JABRA LINK 180

Switch between desk and softphone on a single headset

- Enables use of Jabra QD headsets with PC-based softphones
- Ideal for transitioning from desk phone telephony to softphone
- Manual switch for simple, hassle-free operation

LINK 950

LINK 860

LINK 180

JABRA USB ENABLERS

Simply seamless

Preserve your QD headset investment as you move to UC. USB enablers allow you to connect a traditional desk phone headset to a UC softphone with all the benefits of acoustic shock protection and Noise at Work compliance. USB wireless adapters enable you to connect your Bluetooth headset to your softphone for wireless connectivity.

JABRA LINK 265

Join the conversation or stay muted when training agents

- USB Y-training cable connects to any two Jabra QD headsets
- Supervisor function allows supervisor to stay muted or join the conversation
- Inline call controls; answer/end calls, adjust volume and mute the microphone

JABRA LINK 260

Connect your corded QD headset to a softphone and get call control

- Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience
- Compatible with any Jabra QD headset and all leading softphone brands
- Answer/end calls, put calls on hold, adjust volume and mute at the touch of a button

JABRA LINK 230

Connect your corded QD headset to a softphone

- Enables any Jabra QD headset to be used with a PC-based softphone
- Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience
- Offers cost-effective transition to a UC solution

JABRA LINK 370/380¹

Plug-and-play Bluetooth mini USB adapter for PC

- Offers HD voice, HiFi Audio and A2DP for crystal-clear sound
- Superior wireless range up to 100ft/30m for optimal mobility
- Easy to manage and update with Jabra Direct

JABRA LINK 400

- Upgrade your Engage headset with portable DECT wireless connectivity
- Secure DECT level C
- The Link 400 is included with the Engage 55. It can also be purchased separately to upgrade Engage 65 and 75 headsets to base-free mobility²

JABRA REMOTE CALL CONTROL SOLUTIONS¹

Leave the desk behind

Using a wireless headset together with a deskphone becomes much more productive when you can answer and end calls away from the desk. Jabra Remote Call Control solutions enable volume to be adjusted during the call directly on the headset up to 150m/490ft away from the desk phone. Jabra offers a wide range of plug-and-play solutions to support a variety of different desk phones. Here are some examples:

JABRA LINK 14201-30

Electronic hook switch solution for USB desk phones.

- Enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and a wide range of USB desk phones
- Call control from your wireless headset up to 130m/450ft from your desk
- Answer or end calls, adjust the volume and mute your call from the headset

JABRA LINK 14201-35

Electronic Hook Switch solution for certain Avaya phones.

JABRA LINK 14201-17

Electronic Hook Switch adapter for Polycom phones.

JABRA GN 1000

True wireless headset freedom for use with most desk phones.

A mechanical handset lifter enabling remote call control with virtually any desk phone lacking EHS functionality

Take advantage of features such as remote call-control, audio optimization, workflow support, and real-time call-profiling data to deliver a best-in-class user experience to your customers.

To learn more, go to developer.jabra.com

Quality as standard

Standard features that take your communication to the next level.

COMFORT

Most Jabra headsets have a choice of up to three different wearing styles for the most comfortable and customizable fit.

DECT VS. BLUETOOTH® TECHNOLOGY

DECT – best possible range and density performance. Bluetooth – When mobility with one solution, in and outside of the office, is a key need.

DIGITAL SIGNAL PROCESSING (DSP)

DSP technology optimizes sound performance by filtering out distracting background noise, reducing call-handling times and potential misunderstandings.

HD VOICE – WIDEBAND AUDIO

Enjoy life-like, vibrant conversations that let you focus on the content of the call instead of struggling to hear the person on the other end of the line.

HIGH DURABILITY

Every headset is subject to extensive testing; everything from cable-flexing to boom-arm rotations to acoustic tests. Durability reduces the risk of accidental breakage and replacement costs.

MONO OR STEREO SPEAKER

For many of our headsets, you can choose between mono (one) and stereo (two) speakers, depending on your work environment or your personal preference.

NOISE BLACKOUT™

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic, to enhance your voice.

OPTIMIZED FOR MICROSOFT

The vast majority of Jabra products come in standard variants or variants that have been optimized for Microsoft.

PEAKSTOP™

PeakStop technology, included with all Jabra headsets, immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within a safe range to protect your hearing.

REMOTE CALL CONTROL (RCC)

RCC gives you call control with your wireless headset from your desk phone, using either an Electronic Hook Switch (EHS) cable or a mechanical handset lifter (Jabra GN1000).

SAFETONE™

SafeTone technology, included with selected Jabra headsets, protects your hearing by cutting off sudden loud noises and maintaining a safe average sound level throughout the day – meeting EU noise-at-work compliance and NA recommendations – jabra.com/hearingprotection

SECURE WIRELESS CALLS

All wireless office headsets digitally encrypt the signal between the headset and the base. That's guaranteed confidentiality and peace of mind when you need privacy.

UC PLUG-AND-PLAY

Seamless connection to all leading UC applications and softphones. Easy to set up and easy to use.

WIND NOISE PROTECTION

Keep the thread of your conversation in open-air environments without any interference. Walk, bike, run and work outside with no need to raise your voice or shout to be heard.

ENGAGE AI

Outstanding customer experience, empowered by tone AI

WONDERING HOW TO CREATE ENGAGING CUSTOMER EXPERIENCES IN A HYBRID WORKING WORLD?

Then you'll love our latest innovation: Engage AI. It's a new kind of sentiment analysis software that helps contact center agents enhance and improve the customer experience, empowered by artificial intelligence, and working in harmony with your preferred contact center platform.

INCREASE CUSTOMER SATISFACTION IN REAL TIME

Engage AI analyzes customers' and agents' tone of voice in real time to understand the sentiments running through both sides of the conversation. This helps them adjust and improve their tone of voice to give customers an even better experience. It works because positive agents are more engaged, so customers end calls feeling happy they've been heard and helped.

DEVELOP AND RETAIN EMPOWERED AGENTS

We all need friends we can rely on. Engage AI is like a personal coach, standing in your agents' corner and giving them a pep talk when they need one. So they can confidently get on with their calls, knowing Engage AI has got their back. A personalized interface and customizable avatars add an element of fun, with pop-up notifications letting them know when they're doing a great job, and live tips and tricks helping them up their game in real time.

GIVE SUPERVISORS ACCESS TO ACTIONABLE INSIGHTS

It's not all about the agents – Engage AI has plenty for supervisors to love too. Training, coaching, and bringing new agents up to speed couldn't be easier, with easy call filtering and improved options for team management and mass deployment – both at an individual and team level. Visual dashboards show how individual agents are doing on their customer satisfaction scores, as well as trends for the whole team. Engage AI makes it easy for you to offer more constructive, individualized coaching, just where and when it's needed.

COMPATIBLE WITH YOUR PLATFORMS

Whatever contact center platform you're using, Engage AI is the ultimate partner. It works alongside most platforms and is ideally paired with Jabra Engage headsets, which enable additional features such as measuring background noise, but works well with all professional headsets. Very little configuration is required, and before you know it, your agents will be understanding your customers' moods faster than you can say "let me look into that for you." And if you prefer a single pane of glass view, you can also integrate Engage AI with your own systems and tools using APIs.

WHY CHOOSE ENGAGE AI?

Because tone is the best predictor of emotion, we've trained our AI to understand human tone of voice. It only took 20 years of research by the top professors and engineers in voice emotion tech, over 6,000 human voice parameters, millions of analyzed conversations, and who knows how many email threads with the word 'algorithm' in them. This software breakthrough is, in our opinion, the best solution available for measuring customer satisfaction. But making the ultra-complicated ultra-simple is what we do, so all this knowledge and data is packaged in an amazingly intuitive and engaging interface. With easy-to-read, color-coded graphs, personalized avatars, and live tips and tricks to help agents up their game.

Take standard warranty to the next level

Extend device coverage length to support your budget cycle and policies with up to 5 years total warranty¹ with Jabra Warranty+.

Choose the solution that fits your needs

Jabra Device as a Service financing allows you to spread payments for your investment in a way that matches your needs.

In your corner. Always.

Professional support with Jabra Care 24/5 (Advanced) or 24/7 (Ultimate) boosts productivity by providing support across all Jabra enterprise audio and video solutions outside standard opening hours.

Go to jabra.com to find out which Services are available for products in your region and find out more on jabra.com/business/services

Unified Communications and Collaboration (UC&C)

Our integrated audio and video solutions are designed to connect across and between UC&C platforms to reduce distractions, complexity and distance in the modern workspace, helping you to feel the full benefit of your UC&C investment.

At Jabra, we understand how work happens in the modern workplace, and we care about keeping people connected. That's why we engineer UC&C tools that adapt to the way people work, not the other way around.

Our solutions seamlessly integrate with all leading platforms, fit any workspace, and deliver exceptional user experiences, helping you to drive user adoption and build a high-performing workspace.

What we can do for you

UC&C is undergoing something of a technological evolution at the moment. With this growth comes intense pressure on IT managers to make the correct decisions when it comes to selecting the right equipment for their workforce. With the way we communicate changing all the time, it's important that they choose solutions which are built with tomorrow in mind. That's why we offer:

Solutions that fit in with the way you work

We complete your UC&C experience with integrated audio and video solutions, optimized for your business and connected to the digital platforms you already use.

Great experiences that help drive user adoption

Outfitting your business with UC-certified solutions unlocks the full potential of your digital platforms and provides your teams with user experiences they'll love.

Fast ROI and improved IT workflows

Our plug-and-play devices are easy to deploy, connecting straight out of the box with your platform of choice. This means your employees can get to work quickly with products IT admins trust.

**Better
together**

STRATEGIC ALLIANCES

To provide seamless communication and collaboration experiences, we design, develop and end-to-end test our audio and video solutions in close co-operation with the market's leading UC&C providers and engineering teams. Jabra works with leading alliance partners to optimize the quality and interoperability of our products.

Working closely together on product integrations allows us to bring to market connected solutions that enable a seamless collaboration experience with your platform of choice, right out of the box.

DECISION TIME

Compare Jabra headsets

There's a Jabra headset for everyone, no matter what you do. Use this chart to discover the difference between our headsets, and find the perfect solution for you. This is only a selection of the full Jabra range, and only a snapshot of the features and technology that our headsets offer. For more details on any specific requirements you might have, please contact your sales representative.
