Great sound. Engineered. We make life sound better

Great sound is so much more than *just* sound. It's a way of transforming lives. That's why we make it our life's work to be the experts who deliver incredible sound. We believe that having some of the world's best sound engineers, in addition to the most advanced acoustic testing and development facilities, enables us to make solutions that are truly intelligent and beneficial.

Engineered for purpose

Hundreds of hours of research and meticulous engineering go into each and every Jabra product. The result? Products that are innovatively engineered for purpose, and technology that won't get in your way but will have a huge impact in making what you do better, more efficient, and more productive. We inspire people to go further than before.

We have been enabling people go further for nearly 150 years, and Jabra is proud to be part of the GN Group – a brave and inventive group of people who have been breaking frontiers since 1869. From our home in Copenhagen, Denmark, the GN Group revolutionized communications by laying the world's first submarine cable, which carried the first telegraph line linking East to West and brought the world closer together. The spirit of the GN Group inspires us to break boundaries of our own – for example we've created the world's first ultra noise-cancelling microphone, the world's first Bluetooth® headset, and the world's first sports headphones with integrated heart-rate monitor, to name just a few.

Pushing creative limits

And we don't just share the GN Group's pioneering spirit, we share their knowledge and expertise, too. Our engineers advance technology, set new standards, and push their creative limits. And then they share what they've done within our Group. Consumer tech makes its way into professional tech, medical-grade sound solutions make their way into consumer products, and always with the same goal – to make life sound better.

Thanks to our close relationship with ReSound, our sister brand, we have unrivalled sound capabilities. ReSound are world-leading hearing-aid experts who blend design and technology to bring people with hearing loss closer to the things they love.

Personalized hearing experience

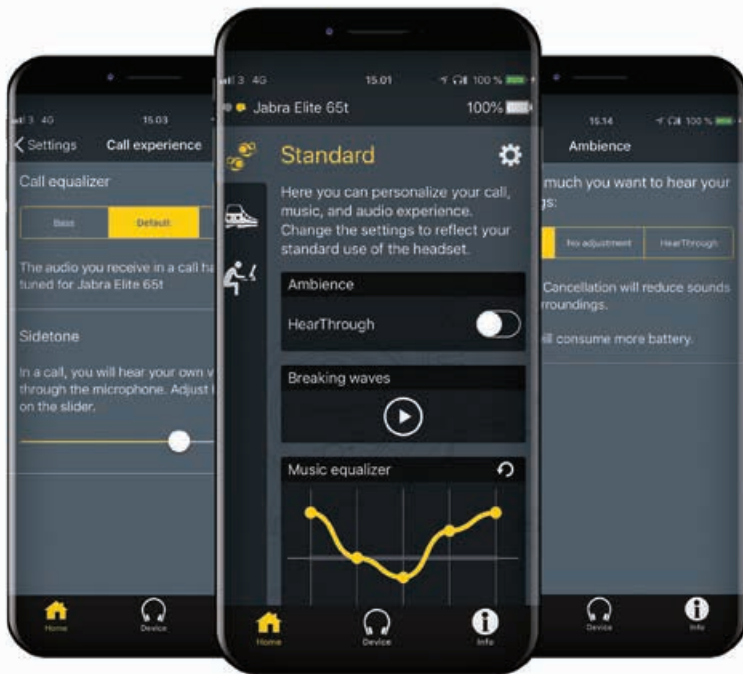

These powerful, discreet, and smart hearing aids can now be controlled by integrated apps. This delivers a natural, personalized hearing experience and can transform the hearing aids into wireless stereo headphones.

Anyone can make sound, but we settle for nothing less than the world's best. Because great sound isn't just made. It's Jabra engineered.

Jabra Sound+

The **Jabra Sound+ app** is the perfect companion to your Jabra headphones* – adding extra features and letting you personalize the way you use your Jabra device. Choose your voice assistant, customize your music profile, modify how much nearby noise you want to hear, keep track of your battery charge, and much more.** The app will constantly evolve; delivering new features to further enhance your headphones. As time goes by, the app becomes even better – and with it so too does your Jabra experience.

To learn more about the Jabra Sound+ App go to Jabra.com

*Currently only available for Jabra Elite 45e, Elite 65e, Elite 65t, Elite Active 65t.
**Certain features, such as ANC, depend on which Jabra headphones you have.

Audio on the go

Wireless calls & music

Intelligent sound solutions
optimized for your life on-the-go

Jabra Elite Series

Engineered for superior wireless calls and music

Enjoy the best wireless calls and music experience on the market with our Elite Series headphones.* Engineered for life on the go, from best-in-class battery to comfortable memory wire neckbands, to superior true wireless earbuds and headphones with ANC and wind noise reduction microphones, your conversations and listening needs are made easy.

***App registration required

The Elite Series perfectly combine form and function, making all-day wearing a reality and ensuring superior sound – whether that's the sound you're listening to, or what the person you're talking to hears. Because everyone has their own requirements when listening to music, each Elite allows you to personalize your sound with a customizable equalizer.

Every Elite comes with one-touch access to voice assistants like Alexa**, Siri® and Google Assistant™. It's the future of voice command, at the touch or tap of a button. And with a 2-year warrant against damage from water/sweat and dust*** – Elite headphones work no matter how active your lifestyle.

Apps

Intelligent audio solutions

Get the most out of your headphones with one of our apps

Jabra Assist app

Customize your headphones

The Jabra Assist app is easy-to-use and helps you get the most from your product. It is now loaded with extra features.

Battery meter³

Keep track of the remaining talk time on your device with this simple, visual indication. Get notified in the app when the battery on your Jabra device is below 10%.

Air update¹

You can now update your device directly via the app.

Find my Jabra

Every time your device is used its position is geo tagged, so if you misplace it you can find it with your smartphone. You can even activate your device to make a sound, making it easier to find.

In-call audio¹

Adjust the incoming call audio to fit your own personal hearing preference. Select between three audio settings: Enhance Clarity, Normal, Enhance Bass.

Text message read-out²

Have incoming text messages, calendar notifications and emails read to you, completely hands free, and respond by using Google Assistant™.

Customize controls¹

Now you can customize how you use your device. Enable or disable the mobile voice assistant (activating Google Assistant™), the tap-to-mute option, the tap-to-answer or end-a-call function.

Setup guidance and user manual

Access to an animated step-by-step guide and your device's user manual from within the app. All to help you get the most out of your device.

Select your language¹

Jabra Eclipse features 10 headset languages. You can now change your preferred language via the app.

Responsible driving²

When you connect to a Jabra Freeway, Jabra Drive or Jabra Tour, your smartphone will switch into safety mode. An incoming message will automatically be replied stating that you are in the car driving and will return later.

¹ For Jabra Eclipse headsets only

² Available only on Android

³ Feature available for all headsets on Android phones and selected headsets on iOS.

Jabra Sport Life app integrated music and training management

The intelligent Jabra Sport Life app ensures you get the most out of your Jabra sports headphones by helping you to create, manage, track and evaluate your workouts.

Plans workouts

Set personal goals based on distance, time, or calories burned. You can select a target pace or heart rate zone, and even set-up interval training.

Monitors & coaches

Get the most out of each session with real-time audio coaching. You get automatic advice at specified time and distance intervals. You can also hit the sports button on the left earbud to get instant updates at any time.

Tests fitness levels

The Rockport Test is designed to measure your VO2 max level. This gives you a precise measurement on the volume of oxygen you can consume while exercising at your maximum capacity. The Orthostatic Heart Rate Test monitors your current state and helps you understand if you're overtraining or under stress. The Resting Heart Rate Test is a great way to understand your base fitness level.

Analyzes & records

Capture key stats like time, pace, distance, calories burned, peak and average heart rate, and others. See your route on a map with an overlay of your heart rate zones. A comprehensive workout history and achievements page puts your workout data instantly at your fingertips.
