*Can extend up to 8.0 km (5.0 mi) between a minimum of 6 riders in open terrain

+MESH / UNIVERSAL
Bluetooth® to Mesh Intercom™ Adapter

- The +Mesh Adapter turns any Sena Bluetooth headset into a device capable of communicating over Mesh Intercom™. The +Mesh Universal does the same for ANY non-Sena Bluetooth headset.

- With the revamped Mesh 2.0 system, +Mesh/Universal utilize an autonomous and adaptive network capable of connecting to a near limitless number of users. Riders are free to enter and exit the network without affecting the experience for other users.

- Easy-to-use: simply attach the adapter to any surface on your motorcycle and connect. For optimal results and to maximize intercom range, mount in a spot that offers the most direct line of sight to the riders whom you wish to connect to.

RC4
4-Button Remote for Bluetooth® Communication Systems

The RC4 Remote Control pairs to a Sena Bluetooth® Intercom headset or Bluetooth-enabled helmet. The 4-button layout is designed to efficiently control as many of the connected device's features as possible. Mount the remote to your handlebars for simple access to the controls. The RC4 has an operating time of 5 months and is powered by a CR2016 Lithium coin battery. It's compatible with a variety of products, including the 10C EVO, and 30K.
